

# INSTITUTIONAL DEVELOPMENT

## **CRYSTAL HOUSE ACADEMY ADDITION INDIANAPOLIS, INDIANA**

---

### Description:

*Design of a 30,000 SF addition to the existing Crystal House Academy with additional parking and loading area on a 3.5 acre site.*

### Services Provided:

- *Site Feasibility*
- *Coordination with the Design Team, Contractor and Owner*
- *Surveying (Topography)*
- *Layout Design*
- *Site Design / Civil Engineering*
- *Drainage Design*
- *Permitting*
- *Project Coordination*

### Notable Characteristics:

- *The Client chose Roger Ward Engineering for their experience with drainage and site development design. The addition for the Crystal House Academy was proposed to be in an area the was provided a design that addressed the soils conditions and had minimal impact on drainage, all the while conserving the preferred layout as proposed by the Architect.*
