

HEALTHCARE DEVELOPMENT

HEALTHNET HEALTH & DENTAL CENTER INDIANAPOLIS, INDIANA

Description:

Design of a building and parking addition for the conversion of an existing office building to a medical facility in Indianapolis.

Services Provided:

- *Site Feasibility*
- *Coordination with the Design Team, Contractor and Owner*
- *Boundary and Topographic Survey*
- *Parking Layout Design*
- *Site Design / Civil Engineering*
- *Drainage Design*
- *“Green” Infrastructure Design*
- *Permitting / Project Coordination*

Notable Characteristics:

- *The project site selected for the building and parking expansion presented several challenges from a site design standpoint. First, the existing building was to be converted to allow for the fully functioning neighborhood health clinic, including the proper parking layout as well as and drop-off area. Roger Ward Engineering was tasked with addressing the existing gradient of the site as well as implementing “green” infrastructure design including coordination of a “live” retaining wall and pours pavement.*
