

INDUSTRIAL DEVELOPMENT

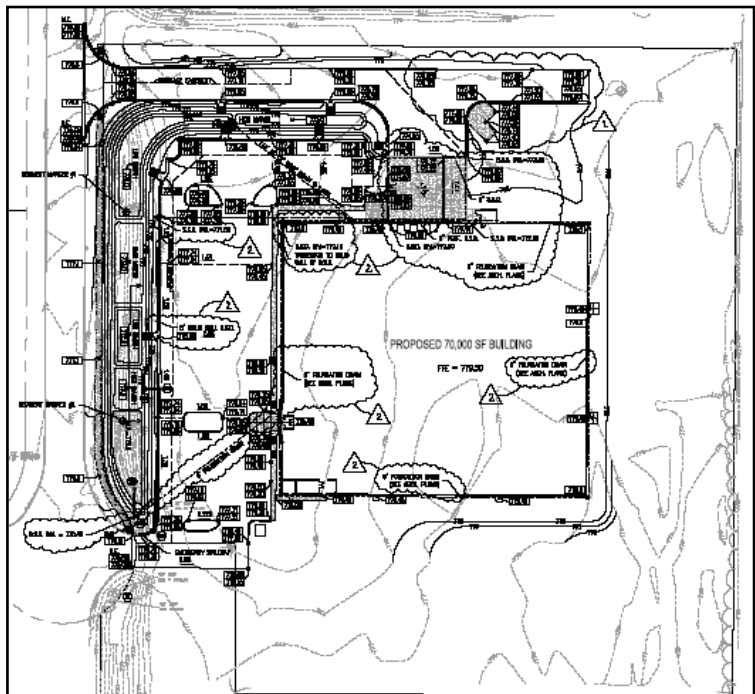

ZIPP SPEED WEAPONRY INDIANAPOLIS, INDIANA

Description:

- Design of a 70,000 SF building with associated parking and entrances on a 6.3 acre site.

Services Provided:

- Site Feasibility & Due Diligence
- Land Planning
- Surveying (Topography)
- Site Design / Civil Engineering
- Drainage Design
- Water Quality Design (Pocket Wetlands)
- Permitting
- Project Coordination

Notable Characteristics:

- The Client wanted to minimize the use of storm piping within the paved areas, including water quality structures. In addition, the site presented limited options for drainage discharge. RWE took a creative approach by designing a pocket wetland drainage system that both reduced the amount of storm piping while addressing water quality.
