

# INSTITUTIONAL DEVELOPMENT

## **CAMBRIDGE CITY LIBRARY CAMBRIDGE CITY, INDIANA**

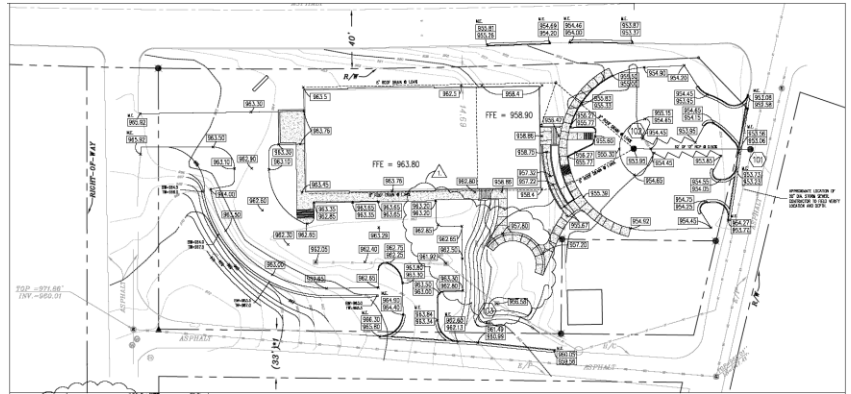

---

### Description:

*Design of a site and parking layout plan for the conversion of an auto dealership to a public library facility.*

### Services Provided:

- *Coordination with the Design Team, Contractor and Owner*
- *Topographic Survey*
- *Parking Layout Design*
- *Site Design / Civil Engineering*
- *Drainage Design*
- *Permitting / Project Coordination*

### Notable Characteristics:

- *The project site selected for the building and parking expansion presented several challenges from a site design standpoint. First, the existing building was to be converted to allow for the fully functioning library, including the proper parking layout as well as and drop-off area. Roger Ward Engineering was tasked with addressing the proper design of drainage so as to not the negatively impact the existing adjacent residences..*
